ID :	Task Name :	2025			2025			2025			2025			
		02	03	04	05	06	07	08	09	10	11	12	01	02
1	Research													
2	▼ Proposal													
3	Proposal Draft 1													
4	Proposal Draft 2													
5	Proposal Deadline						•							
6	▼ Data collection/prep													
7	Design data model													
8	Build database													
9	Learn API													
10	Get sample dataset													
11	Clean and tidy sample data													
12	▼ Build model													
13	Pre-processing													
14	Implement binary classifier													
15	Develop scoring logic													
16	Develop similarity analysis													
17	▼ Build app													
18	Make form for user input													
19	Connect to database													
20	Display output													
21	Design UI if time allows													
22	▼ Report													
23	Lit Review Draft 1													
24	Methodology Draft 1													
25	Full first draft										•			
26	Lit Review + Methodology Draft 2													
27	Full second draft											•		
28	Final checks													
29	Final Deadline												•
